

ONCE YOUR PROFILE IS AT BASELINE · GEO

Take it **beyond the profile.**

Your Google Business Profile gets you to baseline. This is how you start to dominate — the website, content, reviews and connected profiles that get AI to recommend you *by name*, especially in competitive areas. Work through it in order.

A

Your website — the pages AI pulls from

01 A page for every service

One dedicated page per service — not every service crammed onto one page. This is the single biggest website mistake tradies make.

AI MATCHES THE EXACT SERVICE TO THE EXACT PAGE

02 Location pages for the suburbs you serve

Map out your services first, then your key suburbs. A page for each area you actually work in.

THIS IS HOW YOU WIN "NEAR ME" AND SUBURB SEARCHES

03 Make every page genuinely different

Real photos from that area, local detail, specific content. Don't just duplicate a page and swap the suburb in the heading — Google flags that instantly.

GENERIC, DUPLICATED PAGES GET YOU NOWHERE

04 Answer FAQs on the page

The real questions customers ask — burst pipes, hot-water failures, safety switches. Answer them clearly, right on the service page.

AI QUOTES THE SITE THAT ANSWERS THE QUESTION

05 Put matching reviews on the page

Service-specific testimonials on the matching page — reviews that name the service and the suburb back up the claim.

PROOF AI CAN TRUST YOU'LL ACTUALLY DELIVER

B Content & authority — prove you know your trade

06

Publish blog articles that answer real questions

Regular articles on the things customers actually search — how to spot a leak, when to replace a hot-water system.

FRESH, HELPFUL CONTENT SIGNALS A LIVE EXPERT

07

Write helpful, structured content

Answer up front, then bullet points, tables, clear headings. Not a raw copy-paste from ChatGPT — Google and AI can tell.

STRUCTURE IS WHAT GETS PULLED INTO AI ANSWERS

C Reviews — build a system, not a one-off

08

Automate review requests through your CRM

Trigger the request the moment an invoice is paid and the job's complete — a combination of SMS and email works best.

CONSISTENT, REGULAR REVIEWS BEAT A ONE-TIME BATCH

09

Train the team to ask on-site

Build rapport on the job, then make it part of the exit — a simple QR code once the work's done.

THE ASK ON-SITE IS THE STEP MOST TRADIES MISS

10

Get reviews that name the service & suburb

A review that mentions "24/7 emergency plumber in Brunswick" is worth far more than a generic "great job, thanks".

SPECIFIC REVIEWS MATCH SPECIFIC SEARCHES

11

Reply to every review

Good and bad. A calm, helpful reply to a bad one does more good than you'd think — and keeps the profile active.

REPLIES SHOW YOU'RE ENGAGED AND TRADING

D

Connect your entities — one business, everywhere

12 Set up & align every social profile

Facebook, Instagram, LinkedIn, TikTok, YouTube — set them up and keep the details identical across all of them.

MATCHING PROFILES CONFIRM YOU'RE ALL ONE BUSINESS

13 Keep name, address & phone identical

Down to how you write the street — the same everywhere: website, profile, socials, directories.

MISMATCHES MAKE GOOGLE UNSURE YOU'RE ONE ENTITY

14 Keep posting photos — and don't forget video

Regular real photos and before/afters on the profile. And short clips — how to stop a leak, a finished job. Everyone uploads photos; almost nobody uploads video. It's a wide-open gap.

VIDEO IS THE MOST UNDER-USED LEVER RIGHT NOW
